SUMMARY

Full stack developer at Dojo Coding who builds with LLM APIs and AI agents, and works with Anthropic and OpenAI as a partner through the company. Ships production features in TypeScript and Postgres, and works in Python for backend services. Advanced with Claude Code, MCP, and Agent Skills, holds Anthropic and OpenAI certifications, and produces course content on building software with AI.

SKILLS

Claude Ecosystem: Claude Code, Model Context Protocol (MCP), Agent Skills, Claude API (advanced, hands-on, Anthropic certified)

AI: OpenAI & Anthropic APIs, LLM agent development, AI-assisted development, workflow automation

Languages: Python, TypeScript, SQL, C#, C++, Cairo

Frontend & Backend: React, Next.js, Node.js, FastAPI, REST APIs, webhooks, Stripe API

Data: PostgreSQL, Supabase, MySQL

Cloud & DevOps: Azure, Docker, GitHub Actions (CI/CD), Vercel, Git, Vitest, Playwright

CERTIFICATIONS

OpenAI | Oct 2026

- OpenAI Technical Practitioner (valid through Oct 2027). Credential ID: 444959461

Anthropic | Mar-Sep 2026

- Claude Partner Badge, Claude Code (Sep 2026)
- Building with the Claude API
- Introduction to Model Context Protocol
- Claude Code in Action
- Introduction to Agent Skills

EXPERIENCE

Dojo Coding, Software Engineer | Mar 2026 - Present

- Worked hand in hand with Anthropic and OpenAI as a partner through Dojo Coding
- Produce and record the Dojo Certified AI Builder certification (AIB-301): modules 6 to 8, 20 lessons, with demos of building apps with AI using Claude Code
- Proposed and built an affiliate system on my own initiative
- Shipped features end-to-end on a production platform (Next.js 15, TypeScript, Supabase/Postgres, Vercel), including real-time telehealth video (Daily.co), a lab review/release workflow, and an emergency-escalation system
- Picked up and implemented new technologies as needed, such as Stripe, Vercel, and Supabase
- Built type-safe features with React Server Components, Server Actions, and Zod, tested with Vitest and Playwright
- Modeled clinical data with FHIR R4 and protected patient data with Row-Level Security and hash-chained audit logging

Dojo Coding, Software Engineering Intern | Dec 2025 - Feb 2026

- Resolved critical bugs across multiple product features, directly reducing error rates in production
- Built and debugged full-stack features across a production codebase using React and Node.js, improving application stability and user experience
- Implemented end-to-end Stripe payment integrations, handling UI flows, webhook logic, and server-side charge processing

Client project | Financial sector

- Built a platform for a client in the financial sector

EXTRACURRICULAR EXPERIENCE

Numo, Co-founder & Developer | Starknet / Cairo, React, TypeScript

- Architected and built a DeFi platform on Starknet enabling users to grow Bitcoin holdings through automated yield strategies and fixed-term bond products
- Designed smart contracts in Cairo for on-chain bond mechanics and automated strategy execution

- Developed the full frontend in React/TypeScript, integrating wallet connections and real-time DeFi data
- Won the Starknet Reignite Hackathon (May 2025) against international Web3 teams with a working prototype built in 48 hours
- Secured a Starknet Foundation seed grant and was selected for two on-site accelerator cohorts (Nosara and Buenos Aires), with technical mentorship from core Starknet teams

Verifiable AI Agents | Starknet concept

- Explored a startup concept for verifiable AI agents using S-two and ZKThreads, and talked it through with a Starknet Foundation developer advocate

EDUCATION

CENFOTEC UNIVERSITY San José, Costa Rica

Bachelor's Degree in Software Engineering January, 2025 - present

- Sixth four-month term in progress. **Relevant coursework:** Computer Architecture, Operating Systems, Database Programming

ADDITIONAL INFORMATION

- **Competencies:** Self-driven, collaborative, leadership, innovative problem-solving
- **Languages:** Advanced English (oral and written), native Spanish (oral and written)
- **Interests:** AI, open source development, blockchain technology, music
